After all, is it as much fun to win as to lose the umpire?

The chief trouble with the wheat market is the speculative bug.

A Chicago chemist gave six reasons for his suicide, but cowardice was not among the number.

The Detroit girl who has been thrice wedded to the same husband has no end of perseverance.

New York has a woman stone cutter. Men will be particular about giving her the marble heart.

The Infante Alfonso's names appear to be sufficiently numerous and formidable to keep him off the cigar boxes.

It is consoling to realize that sunshine can still be counted upon to follow clouds and rain if we wait long enough.

"What is whisky?" asks the Washington Herald. Now will there be a rush of obliging editors to incriminate themselves?

A cry of "Mice" broke up a woman suffragist meeting at Wimbledon in England. Is there no limit to masculine depravity?

As between aerial and submarine navigation, in their present stage of development, the prudent person still prefers hooding it.

It seems to be settled that both the United States and Mexico want peace down in Central America, and that they will not have to fight for it.

It is a serious charge to say that the women do too much talking through the telephone. Do they hinder other women from using the wires?

Persons with matrimonial experience will endorse Rev. Mr. Philput's dictum that the cheerful heart comes first in Wifely qualities and the clean house afterward.

Raw eggs and sweet milk, taken in large and frequent doses, is the newest cure for tuberculosis. Wouldn't be so bad if the raw eggs could be put up in capsule or powder form.

Two Million Russians are starving. The rest of the Russians have troubles of other kinds. If we were the czar we could not help feeling that we were doing a mighty poor job of governing.

A bureau is to be established for the purpose of aiding tramps. The tramps will consider it a failure if it does not limit itself to the business of providing free meals and wearing apparel.

New York is to spend \$100,000 for free concerts on piers and in parks this summer. There is no city except London where so much free music is supplied, and the outlay this year will be larger than ever.

Mr. Schwab says we shall have to throw away our expensive steel rails and put in new ones of nickel steel. If the capitalization of some of the roads was not so moist they could afford to put in a gold-plated roadbed.

If there are 35,000 men working on the Panama canal, and they are digging something like 1,000,000 cubic yards a month, each man apparently digs something like a cubic yard a day. Of course, however, a good many of the 35,000 never lift an ounce of dirt.

It is probable that Maurice Francis Egan, who writes poetry for the magazines, will be appointed minister to Denmark. It would be a good joke on Alfred Austin, who thinks there are no poets in America, if the President would make it a point when the next ambassador to the Court of St. James is appointed to select some good, steady poet for the job.

Fine old language, the Latin. Fine new slang, our own. We say, to-day, when a man is knocked down and out, "He's got his." The Romans, holding the dying gladiator, pierced by the victor's blade, cried out across the arena, "Habet." And they're practically and almost literally the same thing.

Statistics issued at the close of the year 1906 show that there were in use in the United States alone more than 7,000,000 telephones, and an aggregate of a little over 6,000,000 miles of wire used for telephone service. The telephone industry gives employment to 90,000 persons in the United States, an increase of 171 per cent in six years, while during the same period the number of stations has increased 239 per cent and the wire mileage 349 per cent.

Rev. Dr. Ake's plea for a Christocentric revival staggers his hearers a bit, but they may get at his meaning in time. The distinguished English preacher, like one of his eminent countrymen, evidently delights to indulge in terminological exactitudes.

Dr. Eastwood, an eminent English authority connected with the Royal Commission of Tuberculosis, says that clearly one of the most important steps in fighting the scourge of consumption is to keep a watchful eye on the milk supply.

Dr. Earp's motto for after-dinner speakers that "It is better that a man should be a five-minute hit than a 20-minute bore" should be inscribed in gold letters on all china and glassware used for banquets. And it would not be amiss to put it on the cutlery, the table linen and the furniture.

Manager Hibbard of the telephone company complains that women talk too much over the telephone. Other men, says the Chicago Daily News, have been known to make even more sweeping statements in regard to women's conversational powers.

THE FINANCIAL GREEN APPLES.

Doctor Sam—All right, my boy, eat 'em if you like, but remember I'm no on call if you get one of your spells.

A WARY WITNESS

IN CROSS-EXAMINATION HE REFUSED TO COMMIT HIMSELF.

WAS EMPLOYED BY MINE OWNERS

His Explanation Was that He Was Double Crossing Enemies of Western Federation.

Boise, Idaho.—The complete confession of Harry Orchard in the trial of Haywood involved a record of crime so monstrous that when it had been fully disclosed as the chief reliance of the prosecution for convicting Haywood, the defense found latitude on cross-examination which would have been impossible had the witness been confined to the murder of Steunenberg alone, which he testified he had committed for money paid him by the "inner circle" of the Western Federation of Miners, including Haywood.

Under cross-examination, Orchard admitted stealing sheep he had no use for and also that he had boasted of committing a highway robbery in San Francisco he had never committed at all.

Tales Are Hardly Credible.

The feature of the trial so far has been the testimony of Orchard. According to his own testimony, he is a fiend incarnate. The tales that he continued to tell from the witness stand upon cross-examination and in which he invariably figured as one of the principals are hardly credible, and unless the prosecution brings forth strong evidence to support the story of his crimes, which, he said, were nearly all instigated by the Western Federation of Miners, it is hard to conceive how a jury of fair-minded men could convict the accused.

With a sang froid which possibly has never been seen before in any criminal under similar circumstances, Orchard, by his own confession, stands as the slayer of 18 men, has admitted that he abandoned wife and child, and in his cross-examination has added arson to his already long list of crimes. In fact, according to his own testimony, which was brought out in a grilling cross-examination, this man has confessed to almost every crime beginning with lying and petit larceny.

He admitted that frequently he told of exploits which existed only in his own imagination, but were related with a view of gaining the admiration of his friends for the temerity he displayed in the commission of crime.

Orchard Is a Wary Witness.

For several days in succession Lawyer Richardson, for the defense, pursued the cross-examination of Orchard concerning his confession of the series of murders and plottings. The witness, with remarkable stability, adhered in the main to his story and shrewdly refused to commit himself as to precise dates.

It was in regard to his having been secretly in the employ of the mine owners that the testimony brought the most damaging admissions. This the witness tried to explain by the claim that he was double-crossing the enemies of the miners' federation.

Haywood, in a telegram to the annual convention of the Western Federation of Miners at Denver, said that Orchard was "the greatest liar of the twentieth century," and that he intended to take the stand to refute him, adding that he would be a free man inside of six weeks.

TROOPS TAKE TO THE SHIPS

American Leader of Revolution Is Among Those Who Are Captured.

San Salvador.—A force of Nicaraguans landed at Acajutla, and at once made their way to the town of Sonsonata, where they plundered the custom house and stole \$20,000 from the local agency of the Bank of Salvador. Salvadorean troops then appeared and defeated the invaders, who fled precipitately back to Acajutla, where they re-embarked upon some vessels flying the Nicaraguan flag, and made their way out of the harbor.

The battle was fought near the town of Sonsonata, which is well garrisoned, and is about twelve miles from Acajutla, on the Salvadorean railroad, which connects the ports of Acajutla with the capital of the republic. As soon as the invading force entered the harbor they easily took possession of the town, which was poorly defended. They then seized a train and swiftly moved on to Sonsonata.

Salvador Mobilizes Army.

Meanwhile President Figueroa had heard of the capture of the town and ordered an immediate mobilization of the Salvadorean army. A number of troops were rushed by the train from the capital to Sonsonata. During the night the invaders surrounded the town, attacking this morning with the result above stated.

An intimate friend of President Figueroa declares that while this latest movement has been checked it has not been crushed, for every one in the country realizes it is but the forerunner of a well-thought-out plan, the ultimate aim of which is the seating in the presidential chair of a man of President Zelaya's choice. Within a few days, it is believed, President Figueroa will have to divide his forces in three bodies.

Americans Fight for Zelaya.

FIGHTS 2-CENT LAW

TEMPORARY RESTRAINING ORDER AGAINST MISSOURI ROADS.

26 SUITS HAVE BEEN FILED

Attorneys for Illinois Roads Meet to Consider Means of Attacking the Law.

Kansas City, Mo.—The railroads were taken by surprise Thursday when the attorney general filed 26 suits in the state circuit court and received orders restraining the railroads from keeping the old passenger fare of three cents a mile and the old freight rates in effect. The suits were filed against 10 roads here and 16 suits of similar nature were filed in St. Louis against eight roads.

The conflict of state and federal courts was mentioned by Judge McPherson, who said such a condition would be avoided, if possible, but that the government's jurisdiction would not be allowed to be superseded. As the railroad attorneys wanted time to consider the state's move, adjournment was taken until afternoon, when the time for arguing the different orders will be set.

Illinois Roads to Attack 2-Cent Law.

Chicago, Ill.—A special meeting of the attorneys for the Illinois railroads has been called to consider the possibility of attacking the 2-cent passenger rate law in the courts. It becomes operative July 1, and injunction proceedings will be the method of attack if it is decided practicable.

Missouri has set the precedent in a plea by the railroads for a permanent injunction against the enforcement of the 2-cent law and the maximum freight law.

Proceedings have been begun also in Minnesota, where a 2-cent law is in effect, and tentative plans for action have been made by the railroads in Iowa, Nebraska and Arkansas.

ROBBERS LOOT SANITARIUM.

Patients in Home for Nervous People Terrorized by Night Visit.

Chicago, Ill.—Three armed and masked men, at 8 o'clock Friday morning, drove up to the North Shore health resort of Winetka, 15 miles north of Chicago on Lake Michigan, a sanitarium of fashion for the treatment of nervous disorders, and ransacked the entire place, throwing the 37 patients into a state of terror, and leaving some in a critical condition.

The men walked through every corridor in the place, forcing nurses to accompany them and show them where patients' clothes were kept in their rooms. Patients awakening in terror and beginning to scream, were forced into quietude at the point of revolvers.

Everybody, every room, every bureau and every desk in the institution was searched. The bandits secured over \$2,000 in money and jewels. Much valuable clothing was carried away.

One Killed in Wreck.

Carmel, Ill.—E. Williams, aged 21 years, of Mount Carmel, Ill., was crushed to death on the Big Four tracks at Grayville. The engine crew escaped by jumping. A heavy coal train, in charge of Conductor Ben Dills, left the track at the Illinois Central crossing, ditching the engine and four cars. Traffic was completely blocked.

Tobacco Declared a Necessity.

Washington, D. C.—The government officially declares tobacco to be not a luxury, but a necessity, in a decision by the comptroller of the treasury. JOBBER'S TROUBLES.

The New Law Will Worry Dealers in Food and Drugs.

Washington, D. C.—Trouble is brewing for jobbers and wholesale dealers of food and drug products under the construction placed upon the pure food and drugs act by the department of agriculture. Under the law, the manufacturer of a particular line of food or drug products may obtain from the department a guaranty of the purity or wholesomeness of products. To the manufacturer whose products have been passed upon by officials of the department of agriculture, a serial number is issued as an identification of the products inspected and found to be manufactured and labeled in accordance with the law. Until recently it was supposed that this guaranty would hold good throughout the distribution and sale of the products, but the department of agriculture holds that it does not.

The new law requires that the guaranty shall be from the person who sold the goods to the person charged with the offense. Thus if A & Co. sell to B & Co. and give a guaranty, the former's guaranty is not a valid defense for C & Co. against any action under the food and drugs act, as the last named purchased the goods from B and Co. It is the intention of the agricultural department soon to issue a regulation regarding this matter, which probably will create wide interest among jobbers and wholesale dealers all over the country. It will be necessary for them, in order fully to protect their interests, to insist upon direct guaranties from all those from whom they purchase food and drug products.

Facing east, west, north and south from the angles of the pedestal are four sleeping lions of marble and of heroic size.

ROOSEVELT, HUGHES AND MOSES

Massachusetts Bishop Finds a Resemblance in the Three.

Ithaca, N. Y.—Rt. Reverend William Lawrence, the Protestant Episcopal bishop of Massachusetts, delivered the baccalaureate sermon at Cornell. Bishop Lawrence drew his text from the life of Moses. He denounced the theologians who rush to arms to attack scientific discoveries and the biblical criticism which seemed to jeopardize the Scriptures. He declared this attitude shows a fundamental lack of faith in God's trust. Bishop Lawrence said that Theodore Roosevelt and Gov. Hughes resemble Moses in that they have become successful leaders by sheer force of character against seemingly insuperable obstacles.

WORLD'S PEACE NOT IN REACH

HEAD OF THE HAGUE CONFERENCE TAKES A PESSIMISTIC VIEW.

HAS HOPE FOR ARBITRATION

The Dutch Government Is Doing All Possible to Promote Success—Carnegie and Roosevelt Chetred.

The Hague.—M. Nelidoff opened the peace conference by affirming that universal peace and disarmament was unattainable.

The deliberate utterances of the Russian statesman, although pessimistic to the extent referred to, were hopeful, later, when he said he believed that a better method for the judicial adjustment of disputes was possible, even though all conflicts between nations were no more avoidable than conflicts between individuals.

In the course of his address, M. Nelidoff greatly pleased the American delegates by the high tributes which he paid to President Roosevelt and Andrew Carnegie, not mentioning any other countries or rulers.

The reference to President Roosevelt in the speeches of both Dr. Van Tets van Goudain, the Netherlands foreign minister, and M. Nelidoff were greeted with rounds of applause.

Conference in Session 20 Minutes.

The whole ceremony lasted hardly 20 minutes, when the conference adjourned.

Tea was served in the main hall and the committee rooms after the adjournment.

A drizzling, overcast day did not prevent the government of the Netherlands from trying to give the city a gala appearance.

The red, white and blue flag of Holland, side by side with the orange standard of the republic of Nassau, was hoisted over every public building and many private residences flew the national colors.

Fortunately the clouds began to break toward noon and people gathered to witness the arrival of the distinguished foreigners.

As upon the occasion of the first conference, the government of the Netherlands, in order to lay stress upon the peaceful character and objects of the conference, especially requested the delegates and military and naval attaches not to appear in uniform or wear any insignia of their rank.

Much surprise at the fact that Germany and Australia have representatives on the secretariate at the peace conference. This state of affairs is attributed to an alleged agreement between the three powers to adopt a passive attitude keeping themselves apart from the intimate work of the conference.
